

Jersey Number Audit

What This Tool Does

- Checks for duplicate jersey numbers so you can manually manage them in-game during the offseason
- Fixes out-of-range numbers (MFL or NFL rules) – Can also be edited to your preference
- Protects veteran numbers (vs incoming rookies)
- Applies Team Legacy Lock (if enabled) – Veterans on the team retain their jersey number vs incoming players (rookies or FAs)
- Suggests the next available valid number

Basic Workflow (Start of New Season)

Please skip steps 1-4 if you choose not to use Legacy lock. Also, make sure that Legacy lock is unchecked

- 1) Copy last season roster from exported csv (Copy columns A-G only)

- KEEP → Number is valid and unique
- CHANGE → Number is duplicate or out-of-range
- LEGACY LOCK → Veteran's prior team number restored
- VET LOCK → Veteran won conflict over rookie
- More #'s available → Other valid open numbers

When To Use 'Build Legacy'

- Use at end of season or before new season audit
- Stores jersey history per team for veterans

When To Use 'Clear Legacy'

- Reset jersey history completely
- Start a brand new universe

Important Notes

- Legacy lock applies to veterans only (rookie flag = -1)
- Legacy numbers must be valid under active rules
- Settings and legacy data are saved in your browser
- Clearing browser storage resets legacy data

Recommended Season Flow

- End of Season → Paste roster → Build legacy
- Start of Season → Paste roster → Enable Team legacy lock → Audit & Suggest
